

## Zigi : Mini-PAR Color-Tunable LED Spot

The new ZiGi compact color spot is the perfect instrument for lighting up any place that needs high-quality, adjustable color illumination that is easy to set up and control.

With convenient wireless control options, small size and power supply versatility, the Zigi can be installed almost anywhere to provide exquisite color washes and accents or high-fidelity whites for spotlighting performances or works of art.

Controllable with DMX or from a mobile device with the Luxium phone app, the Zigi is an ideal fixture for track lights, events, shows, hospitality, theaters, archtainment and retail settings.

### Highlights:

- Widest color range in the industry. Powerful, directional beam blows away comparable lights.
- Outputs up to 100W equivalent of mixed-color LED white light in a narrow and uniform beam
- Configurable with AC or DC power input, beam angle diffusers and various mounting options
- Machined aluminum body for an aesthetically pleasing, robust package
- 100% Wireless Control - Bluetooth only or with Luxium ZMX™ wireless DMX available
- Factory calibration means that all your ZiGis match one another
- Simple, intuitive control - start your show instantly with Android or iOS!
- Proudly Made in the USA

### Special Versions Available:

*For outdoor use (Zigi-RX) and track mount (Zigi-TX) applications*

**Events - Merchandizing – Theaters – Lightscaping**

**Zigi can do it all!**
